Address 
Tunis, Tunisia

Profile Summary

Experienced Full Stack Developer with 3+ years of experience developing websites and applications using the latest technologies.

Proven ability to troubleshoot software issues and create innovative solutions.

Work Experience

Automation tester (U-label)

Since April 2023- Now

- Streamlined development process by integrating the automated testing tool Selenium.
- Optimized webpages for performance, scalability, and security using technologies such as AJAX and RESTful APIs.
- Developed RESTful API endpoints using Node.js, Express, and MongoDB to facilitate data transfer between client and server.

Fullstack javascript developer (WITIK)

Since January 2023 – April 2023

- Developed a full stack application using Node.js, EJS and SQL to enable users to interact with a dynamic content management system.
- Implemented a user-friendly front-end design with HTML5, CSS3, and jQuery to ensure an excellent user experience.
- Used modern development tools such as Git and GitLab to collaborate on code and create version control.

Front end developer (Siyou technology)

Since August 2022 – December 2022

- Made high level contributions to a team leading site optimizations.
- Worked with team to solve issues and find and implement efficiencies.
- Collaborated with product managers to design cutting edge features.
- Worked to create tools that enhanced user interactions in any browser.

Full stack javascript development instructor (3w academy | M-it)

Since October 2021 – August 2022

- Taught front end and back end courses.
- Developed more than 10 highly functional web applications.
- Ensure applications' ability to interact with multiple APIs and databases.

Full stack javascript developer (It-msd)

Since January 2021 – September 2021

- Developed more than 10 highly functional web applications.
- Collaborated with a team of engineers, developers, and analysts to design and create leading hiring software.
- Consistently applied best practices for writing clean, secure, readable, and scalable code.
